

Thank you for your interest in Wyoming Life Flight. In order to process your request for a site visit we ask that you fill out the attached form. We can provide your organization with landing zone training and the benefits of membership in Wyoming Life Flight. Our number one priority is the safety of the patients we fly, our flight crews, and all those who assist us. Please take the time to read the following safety policies.

The Landing Zone

- ↪ Size
 - 75'x75' Day 125'x125' Night
- ↪ The site should be clear of;
 - People, vehicles, trees, utility poles, wires, posts, stumps, brush or large rocks.
- ↪ Keep spectators at least 200 Feet from the landing zone and emergency service personnel should be at least 100 Feet.
- ↪ Do not mark the landing zone with flags, tape, etc.. Please only use spray paint. Loose objects can damage the aircraft and pose a danger to people on the ground.

The Aircraft

- ↪ Never approach the aircraft unless instructed or lead by a flight crew member.
- ↪ The pilots have final authority of the aircraft.
- ↪ Never approach the aircraft from the rear. The tail rotor can be invisible at times while the aircraft is running.

After receiving your request for a site visit, a member of the Life Flight team will call and speak with the contact person. If an aircraft is requested and your site visit is approved, a pilot will also call the contact person to discuss the intended landing zone. Although we make every effort to attend your event, we do not turn down emergent transport requests. So, it is possible that we may get called to fly an actual patient mission prior too, or during your event and must leave on a moments notice. Please do not hesitate to call us if you should have any questions.

Please Fax the completed form to: 307.233.8187
